

I request that my local K-LOVE station not be replaced by a LPFM station. K-Love provides my primary listening, it provides myself and countless others with hope and encouragement throughout the day. This hope and encouragement helps lead to positive thinking and a real can-do attitude, which helps drive my small business forward. K-Love is a positive voice in a world of negative reporting and less than positive radio. The music of K-Love is part of helping provide a positive community environment that provides constructive opportunities for everyone. Please do not replace my local K-Love station with LPFM. Thank you for listening.
